"Krav Maga is very "mental" style of martial arts. This means that it's not about how much physical power you have. It's about what's going on inside of your mind and your spirit. Through Krav Maga at John Leroux's World KarateFIT Centre – your confidence will grow... your self-control and self-discipline will skyrocket...and your awareness over yourself, and the choices you make will become keen. That way you can steer yourself to live the kind of life you truly want and deserve."
